Agreement for Performance of Work: Local IT support for UNAIDS BRAZIL

Period of contract: 2 January 2020 – 31 December 2020

Background:

UNAIDS has its own office and cannot depend on the co-sponsors for required technical IT support for their day-to-day functioning. The office is operating with core network devices (Cisco Meraki Firewall and Wi-Fi AP, Polycom VC, Riverbed WAN Accelerator, and Cisco IP phones).

Objectives: The purpose of this TOR is specifically:

To recruit a company or an individual to provide essential day to day IT support for the UNAIDS Office in Brasilia, Brazil.

The required services will be performed at UNAIDS premises.

Emergency calls may be performed remotely at some occasions.

Description of tasks:

The local IT Support will interact directly with the users, providing practical operational support and IT services that facilitate the work of all staff. Specifically, the Local IT Support will perform the following tasks:

- ✓ Setup and configure new equipment using UNAIDS standard configuration image.
- ✓ Re-imaging computers with UNAIDS standard image when needed.
- ✓ Ensure that Local Network is properly maintained. Troubleshoot and repair LAN cabling issues and other LAN related issues.
- ✓ Ensure UNAIDS network equipment are accessible and securely stored.
- ✓ Provide support for UNAIDS meetings.
- ✓ Assist the office in liaising with local vendors regarding technical issues
- ✓ Assist UNAIDS operation team in sourcing quotation for IT procurement in line with UNAIDS Standards.
